

Let's meet at the Megaron
Athens International
Conference Center

Booth 23A, 10 – 13th June 2022

At TestLine we are already getting excited about this year's Congress on Autoimmunity in Athens, and we'd love to see you there. TestLine is a Czech company engaged in the development, production, and distribution of laboratory diagnostics. It is part of BioVendor Group. This synergy makes possible to solve the individual needs of each diagnostic laboratory and redefines the reliability and speed of current diagnostics. TestLine will be presenting our innovative approaches in IVD diagnostics. Our key projects such as MBA, CLIA and EIA SmartKits will be introduced there.

Microblot-Array ANA (44 antigens)

The most comprehensive diagnostic tool for ANA diagnostics

CLIA

Fully automated CLIA solution

TestLine SmartKits & Agility

Next generation of ELISA automation with walkaway performance

ELISA & BLOT

Reliable and robust kits for infectious serology and immunology
